Help us make Connections better!

Periodically, we like to get feedback on this publication so we can make it even better and more useful to you. Well, that time has come again, and we're asking you to take a few minutes out of your super-busy day to let us know what you think of Connections.

We're interested in hearing your thoughts about the length of the articles, what you get out of the publication, and what content interests you most, among other things.

The survey only contains about a dozen questions and should be a snap to fill out. Your input is greatly appreciated, and we'll report what you had to say in our next issue.

Please respond to the survey by Monday, October 15. We'll send out a gentle reminder to those on our mailing list a week before the survey closes. That's how important your feedback is to us!

One of the changes we made, based on the feedback we received last time, was the inclusion of the right-side navigation tool so that Connections could become a "one-stop shop" for other Laboratory information you might need.

Should you require any additional information, please contact the Community Programs Office at (505) 665-4400.

Thanks in advance for your time.
